Unity Yoga Teacher Training 2022 Prospectus

YOUR NEW YOGA JOURNEY STARTS HERE!

Thank you for your interest in the Unity Yoga Teacher Training diploma. This **200-hour programme** has been running since **2002** with groups no larger than 10 students.

I hope this document will answer any questions you may have about the journey. Please take some time to read it carefully, and if any uncertainties remain or you would like to chat about the course, please don't hesitate to contact the Unity team directly. Course requirements suggest that you have had a regular yoga practice for at least three years. This means practicing around three sessions of yoga per week, including at least one weekly taught class.

This guideline is flexible, so please call to discuss your experience. Often a strong current passion and commitment to the path may be more worthy than hours on the mat.

The course is delivered over regular monthly teaching weekends. There will also be about six to eight hours of home study required per week. It's suggested that you plan carefully to keep on track with the timetable.

If you have any further questions, please email me on sevanti@being-in-unity.com.

Warm wishes and blessings,

Namaste.

What is Unity Yoga?

Unity Yoga is a deep and meditative flow through seated meditation, asana, pranayama and savasana.

It is an enquiry into organic, natural movement; moving inwards through focussed awareness to then open outwards into a spectrum of authentic yogic postures with sensitivity and strength.

The heart of this practice is about 'being with oneself', letting go and enjoying the process of unfolding rather than judging or forcing. We establish our practice through the recognition of our miraculous, intelligent body and mind, therefore moving naturally and uniquely to our personal form and personality.

Through this sensitive authenticity we are able to explore a diverse spectrum of asanas with various approaches and dynamics.

Meditation, breath, letting go, depth, humility, these are the entry points to a long-term nourishing and inspiring practice.

Our style changes as we change, but this diploma is interested in the underlying thread of yoga, the ability, primarily to connect with our ultimate truth and live our potential of love and joy.

The dynamics and content may vary between Unity Yoga teachers, but the central focus is on the fluidity of natural and authentic movement, relationship with breath and the awareness of our fundamental state of being. A Unity class usually starts with seated meditation, followed by mantra and pranayama. The body is warmed up before flowing through restorative/flowing/dynamic asanas, weaving through an awakening and cleansing journey through the chakras.

The body-mind is respected as a whole system, honouring the felt sense of emotions, thoughts and beliefs stored within the physical body.

With courage, surrender and lightness we tune in to the intelligence of our system, and the simplicity of letting go of the tension held within the body and mind. Care is taken to be true to our

unique body, enjoying a wide range of possibilities and variations to maintain safe and effective alignment. Moving and still postures are carefully chosen to take each practitioner on a deep but fun journey of awareness. The purpose of a Unity Yoga session is to allow each person time to pause, to listen to the body, mind and emotions and to undo any accumulated tension. We can then replace tension with an open heart, spaciousness, positivity and trust. Yoga brings awareness to all parts of ourselves, inspiring balance and clarity and ultimately a greater connection with our higher-self, and all that surrounds us.

Swami Satchidananda (Founder of Integral Yoga) said: '(Yoga) is a flexible combination of specific methods designed to develop every aspect of the individual; physical, emotional, intellectual & spiritual.'

It is a scientific system which integrates the various branches of yoga in order to bring about a complete and harmonious development of the individual.

INFLUENCES

Sevanti's development of Unity Yoga was inspired by her earlier paths through practices such as Integral Yoga, Sivananda, Ashtanga, Scaravelli and Iyengar to name but a few. She likes to fuse dynamics and energies together to allow a blending of yin and yang; a strong, grounded practice with an underlying organic lightness and flow. Overall the Unity style is on the slower end of the yogic spectrum, and it interchanges smoothly between surrendered stillness and flowing, meditational movement.

This diploma invites the discussion and practice of various styles of yoga, therefore students from different paths are welcome to join.

All that is required is a willingness to dive deeply into meditation, to explore the fundamental foundations of yoga thoroughly and to allow their true relationship to yoga to emerge.

As each of us change, our practice and teaching also changes. What remains throughout is our commitment to a deeper inner awareness, a lasting spiritual connection and a pull to live a life of love, connection and respect to all beings.

The underlying message of this diploma is that each individual is invited to create/develop their own yoga, one that is authentic to ones true self!

Sevanti teaches the majority of the diploma, but in addition to inviting highly respected and knowledgeable teachers to contribute their specialist areas.

Sevanti brings her background of Contemporary and expressive dance into the diploma, as well as her application of various approaches to massage, healing and bodywork.

She shares her passions from other forms of movement and meditation, such as Sufism, Zen, Tantra and Buddhist practices. She teaches in a friendly, down-to-earth way, enjoying fun and humour along the way!

ADDITIONAL COMPONENTS

In addition to exploring various style of yoga, we look at a diverse range of Raja yoga teachers, and general Spiritual Masters and teachers. Osho has

influenced Sevanti's journey deeply, some of his messages particularly in relation to freedom and yoga are shared on this course.

The core of practice continuously returns to our own true centering. When we're rooted deeply and gathered into our centre, our whole perspective changes.

When we pass through the periphery to the heart, through the changeable emotions to our centre where our ultimate truth resides, then conflict eases and we are at one with ourselves and our surroundings. Students are supported to establish daily meditation to create a long lasting anchor in ones spiritual practice.

A balanced and complete class requires an interplay of various aspects of yoga. We study in detail asana, pranayama, meditation, mudra, bandha, mantra, kriyas, yoga nidra, tantra, body-mind balancing and yogic theory and philosophy via various approaches.

Anatomy & Physiology and First Aid also contribute to an extensive knowledge and understanding, with class safety of utmost importance. There are also sessions in adjustments, Unity Partner Yoga, ayurveda, diet & nutrition, emotional kriyas and more.

“

The purpose of a Unity Yoga session is to allow each person time to pause, to listen to the body, mind and emotions and to undo any accumulated tension.

We can then replace tension with an open heart, spaciousness, positivity and trust.

”

Yoga For All

A strong emphasis is placed on benefiting the whole community through yoga. Therefore there are specific sessions in teaching pregnancy, children, less-able bodied students, the elderly and deaf students, to name but a few.

Sevanti created The Unity Centre as a not-for-profit CIC, to ensure that the vision was based on people and not profit. Unity fundraises to establish specific projects whereby certain groups and individuals can access free or reduced services. Those with physical challenges and learning difficulties are welcomed onto various programmes to

receive Therapeutic Yoga, plus Art/ Music and Movement Therapy.

REACHING YOUR COMMUNITY

Understanding how to run one's business, as well as support in promotion and administration is also essential and therefore included in this diploma. A post graduate course follows, and there are opportunities to teach at the Unity Centre.

Emphasis is placed on the essence of yoga as a lifestyle, a journey not a destination. A path to being more present, honest and more integrated – with ourselves and the

world around us. It is also a path of celebration, a practice to be enjoyed and shared.

Overall, a good teacher inspires by authentic example. Therefore the most essential aspect when considering this diploma is whether one is ready to make their yoga their life; to commit to continuous self reflection, awareness and love.

This diploma is open to those who have a passion to develop to their potential, to connect with their true self. To hear the call to go inwards and to bring that beauty out into the world.

Sevanti's Background

From a young age Sevanti was interested in movement and dance, nature, energy and healing. She realised that she had been practicing what she later found to be called 'yoga' in her young teens. She then developed this with various teachers until her three year Yoga Teacher Training with Swami Satchidananda in her early 20s. Sevanti has undertaken various post graduate diplomas since then and has spent 30 years developing her practice and facilitation

STUDY & TRAVEL

Sevanti had previously completed a BA (Hons) in Dance Theatre at the Laban Centre. Her yoga teacher training directed her deeper into the nature of organic movement, breath and meditation. Practicing, learning and teaching around the world from Greece to Thailand, Sweden to Turkey, offered Sevanti over a decade of diverse experience in running retreats for her organisation 'Unity'.

She also directed holistic holidays for companies like 'Skyros'. She also trained in teaching Massage and Reiki, so gradually with her extensive and diverse teaching experience it seemed natural to develop her own professional diplomas, which began in the early 2000's.

Sevanti wanted to share her experiences, wonderful teachers and techniques with local students, in a very thorough, professional but down to earth way establishing Yoga Teacher Training & Bodywork Programmes.

She has spent many years visiting various ashrams, centres and retreats so she draws upon many of those experiences, along with her background in movement and dance. These related elements and inspirations are poured into her professional syllabuses. Aspects of Biodanza training, years of dancing Five Rhythms and her love for Sufi practices and other meditational movement techniques all become a part of what she currently shares.

Sevanti became validated by the very best accrediting bodies; the IYN & MTI. These diplomas have been running since 2002, nurturing around 10 students per course each year from her Unity Studio.

OPENING THE STUDIO

It had been a dream to open her own yoga studio. Sevanti discovered a light and spacious, nurturing and homely studio space with its own courtyard garden in Brighton and in 2012 she opened the Unity Studio & School. In the autumn of 2019 Sevanti opened the Unity Centre in Lewes. This centre offers classes, trainings and treatments. There's a floatation suite, an Infra-red sauna, therapy and treatment rooms, two yoga studios and a vegetarian/vegan café. The centre offers access and facilities for those less-abled bodied, and has a range of suitable classes and workshops for all.

UNITY PARTNER YOGA™

In 2000, Sevanti spent extensive hours with her friend and fellow yoga teacher, Sarah Jennings, combining yoga postures into partner work. Sevanti is passionate about the metaphor of Partner and Group Yoga, how it draws people together to go deeper into their practice in a fun and sacred way. She established Unity Partner Yoga™ in 2000. She has taught this in various parts of the world, to diverse ages and backgrounds Sevanti developed this into a second IYN Post Qualifying course, 'Unity Partner Yoga™ Teacher Training' in 2012.

To Consider

As a student, you will be experiencing a powerful group journey together. We honour the yogic principles to create harmony and flow within the group.

- Our values underpin the flavour of the atmosphere that we create at Unity. Please read through these in our 'Core Values' section and decide if this is in harmony with what you are looking for (overleaf).
- In addition to the internal and external assessment, the student is also assessed informally throughout the course in practical application, in addition to theoretical input and general conduct. The student must demonstrate the appropriate personal qualities expected of a yoga teacher during the course, in order for them to receive their certificate.
- There is a large workload for this diploma. In the past, students have managed to work full time, spend time with their families and study various distances. However, please note that your time management may need some readjusting. Becoming a yoga teacher is a significant change of life, and the amount of coursework reflects the investment of time and energy required in this chosen path.

It is important to realise that the student may not be able to graduate if these skills are not met.

These skills are relevant to teaching, but also to the entire course in showing support and respect for fellow students, teachers and clients. These values are essential for a yoga teacher.

We ask that you attempt to

- Show sensitivity to other people's needs and work with love and respect for one's surroundings, fellow students and teachers.
- Discuss problems in a mature manner, with sensitivity, attentiveness and kindness.
- Aim to be trustworthy, respecting confidentiality around personal information.
- Take care of yourself and others.
- Seek support when needed, from friends/family/therapists. This course is a serious undertaking; a deep transformative and personal journey. Therefore we suggest a strong supportive network. Students are responsible at all times for their physical, mental, spiritual and emotional well-being. If you require external support we are happy to suggest various practitioners and therapists who may also offer you additional support.
- Demonstrate self-assurance: adopt a positive standpoint of your abilities to progress. Show confidence in yourself, with patience and awareness.
- Social reliability: respect the schedule and the group by being on time. Respecting confidentiality and maintain boundaries.
- Maintain a professional appearance: care for personal hygiene and tidiness, particularly when teaching a class.

Our requirements

- Join 4-hours of workshops (i.e. Partner Yoga) with Sevanti outside of the teacher training (this is required).
- Ensure that you pay the required deposit, follow your payment plan and advise the Unity School Manager if there are any problems with financial arrangements. Please ensure that you have sent the relevant forms to the Unity School Manager before the start of the course.
- If you decide to leave the course, notice must be given in writing to the course tutor, Sevanti, and the Unity School Manager, Iona Naylor (school@being-in-unity.com). Please be aware that the course is non-refundable
- Honour that a signed contract is legally binding. It is therefore essential that each student fully intends to complete the course. Please think carefully about this commitment in terms of your time, energy and finances. If a student leaves the course all payments must be made regardless of the reason for leaving.
- To arrange your own transport and accommodation if required, please note the teacher training will be held at The Unity Centre in Lewes.
- To arrange a medical or holistic practitioner to complete your medical form before the start of the course.
- To regularly check emails relating to the course, or inform us if you do not have access to the Internet.
- To arrange a medical or holistic practitioner to complete your medical form before the start of the course. Missed sessions and lateness can cause disruption to the rest of the group and the tutor.
- Please communicate with Sevanti or the session teacher ASAP if you are unable to come to a session or are running late.
- Understand that punctuality is important with every aspect of the course, including practical/theoretical sessions, exams and coursework.
- If a session is missed, a catch-up session will most likely be required at an extra cost, as indicated in the financial structure.
- 100% attendance. Full attendance in the initial 3 sessions is of utmost importance. Approximately 5-6 hours of home study time will be needed each week, as well as time for planning and teaching 2 x 8-week blocks of classes and 2 x one-to-ones.
- Homework and coursework must be completed before the set deadline. Please contact Sevanti if there are any circumstances that may prevent the work being completed on time.

- For A&P, there will be about 20 hours of teaching time and regular home study – 20 minutes per day is recommended.

- Please follow the guidelines regarding any practical and theoretical coursework. Always ask your tutor if there are any questions.
- Purchase the relevant literature for the diploma and the A&P course.
- Inform us if you have incurred any injuries or pain, which may affect you continuing to study on the course.
- Students will need to take out student insurance for the duration of the training. Please ask for details at the start of the course. Ideally, please enquire with IYN for their insurance policy details.
